
PROCEDURES FOR CGU FACULTY PARTICIPATION IN THE PERIODIC REVIEW OF THE PRESIDENT

The President of Claremont Graduate University is appointed by the Board of Trustees and serves at the pleasure of the Board. The performance of the President shall be reviewed by the CGU faculty every three years.

The Faculty Executive Committee shall designate a three-member task committee of the faculty to prepare a review for transmittal to the Chair of the Board of Trustees. With input from the President, the task committee shall prepare a statement of the specific objectives of the review and methods to be used for gathering faculty views. The President shall have an opportunity to prepare a statement of his or her objectives and achievements during the period under review. This statement shall be distributed to the CGU faculty before or at the same time that the task committee conducts its review.

After conducting its review, the task faculty committee shall submit a draft of its report to the Chair of the FEC and the President for the purpose of correcting factual errors. The task committee's final report shall be submitted to the FEC Chair, the President, and the Chair of the Board of Trustees. The FEC Chair will meet with the President and the Chair of the Board of Trustees in May to discuss the results of the triennial review. In addition, the FEC Chair shall prepare a summary of the report for the CGU faculty. The deliberations and findings of the task committee shall be strictly confidential, except as provided in the previous items.
