

Will the Office of Career Management give me direct access to alumni for networking purposes?

When you engage an Office of Career Management staff member in a consultative relationship, you may be provided with alumni contacts if we have an ongoing relationship with an alumnus who works in your field of interest. Before referring you to a direct contact, we will often work with you on your networking skills and strategy because your professionalism when meeting with alumni will be an important factor in the success of your effort.

For a database of alumni contacts, Drucker students and alumni should register for the Drucker online community at www.druckeralumni.org by clicking on the “first time login” tab at the top of the web page. Other CGU students may utilize the Office of Alumni Affairs as a resource (<http://alumni.cgu.edu>).
