

Are there lists of jobs at the Office of Career Management?

Yes. Each week, we receive dozens of job announcements from colleges, school districts, city and county agencies, non-profit agencies and private sector companies. We keep these listings in binders that are available to all CGU students and alumni in our office. In addition, students can access www.monstertrak.com to research job and internship listings, upload resumes and participate in on-campus interviews that employers have opened to CGU students.
