

GRAHAM BIRD
(February, 2021)

BRIEF PROFILE

Graham Bird is a Professor of Economics at Claremont Graduate University in California and Co-Director of the Claremont Institute for Economic Policy Studies. He is also Emeritus Professor in the School of Economics at the University of Surrey in the UK, where he was Head of Department for twelve years, and founder and director of the Surrey Centre for International Economic Studies (SCIES). He has been a Visiting Professor at The Fletcher School, Tufts University and at Claremont McKenna College and he has also taught at the universities of Kent, Sussex and Reading, as well as the London School of Economics in the UK and at Wellesley College in the US. He has acted as a consultant or adviser to the IMF's Independent Evaluation Office, the World Bank, various UN agencies including UNDP and UNICEF, the UK Treasury, the Bank of England, the European Central Bank and the Commonwealth Secretariat. He has been a Visiting Scholar in the IMF's Research Department, the Institute for International Economics at Stockholm University, and the Center for International Development at Harvard's Kennedy School. He served on the Steering Committee of the Royal Economic Society's Conference of Heads of University Departments of Economics (CHUDE) and on the Quality Assurance Agency's Benchmarking Group that set standards for teaching Economics at universities in the UK. He is the author, co-author or editor of more than 260 publications including 26 books and monographs. His research often crosses conventional disciplinary boundaries and his published papers have appeared in internationally leading economics, development and international relations journals including *Journal of International Money and Finance*, *European Economic Review*, *World Development*, *Journal of Development Studies*, and *International Organization*. He had three papers published in the prestigious *Princeton Essays in International Economics* series. Many of Graham Bird's papers have been heavily cited in the academic literature. They have been widely used by policy makers and have influenced the design of policy. As of June, 2020 Google Scholar showed him as having nearly 6000 citations, an h index of 38 and an i10 index of 139. He has been ranked in the top 5 per cent of authors in economics worldwide on the basis of his research output and citations by RePEc and he has a ResearchGate score that is higher than 93 per cent of all RG members. His most recent book, *The IMF: Distinguishing Reality from Rhetoric*, co-authored with Dane Rowlands was published in 2016. It provides a detailed empirical examination of IMF programs, the pattern of their use, their implementation as well as their impact on economic growth, private capital flows and foreign aid. Reviewers have referred to it as a 'must-read' for any serious scholar of international economic affairs and as a benchmark for future research. He is currently working on another book that examines various aspects of international macroeconomics and finance as well as a series of articles on topics in international money and finance including the effects of IMF programs, global economic imbalances, contagion and international financial crises, the international financing of economic development, and global policy responses to the COVID-19 crisis.

EDUCATION and ACADEMIC QUALIFICATIONS

University of Surrey: PhD in Economics (by publication)

University of Cambridge: MA in Economics
BA (Hons) in Economics

Trinity School, Croydon: A-levels in Economics, Geography and History

CAREER HISTORY

Current Positions

- Clinical Professor/ Professor of Practice in Economics, Claremont Graduate University, California, US (half time)
- Co-Director: Claremont Institute for Economic Policy Studies
- Emeritus Professor of Economics, University of Surrey

Previously Held Positions

Professor of Economics, University of Surrey, 1987-2010.

Director and Founder, Surrey Centre for International Economic Studies (SCIES), 1992-2010.

Visiting Professor of Economics, The Fletcher School, Tufts University, US (part time)

Visiting Professor of Economics, Wellesley College, Massachusetts, US.

Visiting Professor of Economics, Reading University.

Visiting Scholar, Research Department, International Monetary Fund, Washington D.C.

1988-1998 Head, Department of Economics, University of Surrey.

1979-1987 Senior Lecturer in Economics, University of Surrey.

1975-1979 Lecturer in Economics, University of Surrey.

1972-1974 Lecturer in Economics, then Senior Lecturer in Economics, Kingston Polytechnic (now Kingston University).

1970-1972 Departmental Research Economist (with some lecturing and tutoring responsibilities), Department of Economics, University of Reading.

1969-1970 Economist, Market Intelligence Department, National Westminster Bank.

Other Professional Experience

Consultancy

- High level expert economic advisor to the Independent Evaluation Office of the IMF.
- Consultant to European Central Bank on the IMF and emerging economies.
- Consultant to World Institute for Development Economics Research (WIDER), United Nations.
- Consultant to Management Education Institute, Arthur D. Little, USA.
- Consultant to the United Nations on North-South issues.
- Consultant to the World Bank on various aspects of international debt and private lending.
- Consultant to the Commonwealth Secretariat on various aspects of international financial reform.
- Economic Advisor to the Rt. Hon. Edward Heath, MP, in his capacity as member of the Independent Commission on International Development Issues (the Brandt Commission).

Research

- Research Associate, Overseas Development Institute.
- Economic and Social Research Council Visiting Scholar, Institute for International Economic Studies, University of Stockholm, Sweden.
- Visiting Research Scholar, Harvard Institute for International Development, Harvard University, USA.

External Examining

- PhD Examiner at City University, and the universities of Buckingham, Durham, Kent, London, Loughborough, Manchester, Oxford, Reading and Southampton.
- MSc Examiner in International Relations at the London School of Economics and Political Science.
- MSc Examiner in Economics at the University of Reading.
- Examiner for Southern Universities' Joint Board.

Editorial, Refereeing, Reviewing and Assessment Work

- Editorial Board of Journal of Economic Policy Reform.
- Editorial Board of Review of International Organizations.
- Editorial Board of Trade Policy Research Centre.
- Editorial Board of Surrey University Press.
- Editorial Board of Zagreb International Review of Economics and Business.
- Series Editor: Surrey Seminars in Applied Economics.

- Editorial Advisor to Allen & Unwin; Blackwell; Cambridge University Press; Edward Elgar; Longman; Macmillan; Manchester University Press; The MIT Press; Princeton University Press; Wiley
- Referee and/or reviewer for, inter alia: *American Political Science Review*, *Applied Economics*; *Bankers Magazine*, *Development Policy Review*, *Economica*; *Economic Development and Cultural Change*, *Economic Journal*, *Economic Record*, *European Economic Review*, *Global Policy*, *International Affairs*; *International Politics*, *IMF Staff Papers*, *Journal of International Financial Markets and Money*, *Journal of Development Economics*, *Journal of Development Studies*, *Journal of International Development*; *Journal of International Economics*; *Journal of International Relations and Development*, *Journal of Latin American Studies*, *Manchester School of Economic and Social Studies*, *Millennium*, *Open Economies Review*, *Review of International Economics*; *Social Science Review*, *Third World Quarterly*, *The World Economy*, *World Development*.
- Research referee for Economic and Social Research Council (ESRC), Leverhulme Foundation.
- External assessor for the appointment of professors and readers in universities in the UK, North America, Africa, the Far East and the Caribbean.

TEACHING EXPERIENCE

Current Teaching at CGU

- The World Economy: Trade and Finance
- International Development: Finance, Institutions and Policy
- Global Money and Finance
- Contemporary Issues in International Money and Finance
- Modern Macroeconomics: Analysis, Policy and Applications

Other Teaching and Supervising Experience

- Introduction to Economic Theory
- Introductory Microeconomics
- Introductory Macroeconomics
- Intermediate Macroeconomics
- Principles of Economic Analysis
- Contemporary World Economic Issues
- Finance and Development
- Economic Analysis and Policy
- Applied Macroeconomics
- Development Economics
- International Development
- International Macroeconomics
- International Monetary Theory

- International Trade and Finance
- The International Monetary System
- Macroeconomics and International Relations
- International Economics
- Money in the International System

I successfully supervised more than 50 post graduate research theses at Masters and Doctoral levels at the University of Surrey and have sat on more than 50 Doctoral Dissertation Committees at CGU.

ACADEMIC MANAGEMENT and ADMINISTRATION

Positions of Responsibility (excluding membership of numerous University and professional committees).

All experience listed below and unless otherwise stated relates to the Department of Economics, University of Surrey.

2002-2003	Departmental Research Co-ordinator, Doctoral Admissions Tutor and Director of PhD programme
2002 – 2003	Chair, Departmental Research Committee
1992-2010	Director and Founder, Surrey Centre for International Economic Studies (SCIES)
1988 – 1998	Head of Department
1992 – 1998	Chair, Departmental Research Committee
1994 – 1998	Chair, Departmental Teaching and Learning Committee
1981 – 1988	Course Director and Admissions Tutor, Single Subject Honours Degree in Economics
1985 – 1986	Acting Head of Department
1975 – 1980	Course Co-ordinator, Combined Degrees with Business Economics
1977 – 1978	Academic Tutor and Course Board Secretary, Economics, Sociology and Statistics Degree
2019 – 2020	Co-Chair, Department of Economic Sciences, Claremont Graduate University.

2004 - Program Director/Co-Director for International Money and Finance field and International Economic and Development field in Department of Economic Sciences, CGU

Past Committee Membership (excluding Departmental committees)

- School of Human Sciences Policy and Strategy Committee
- School of Human Sciences Research Committee
- UK Quality Assurance Agency Benchmarking Group for Economics
- Conference of Heads of University Departments of Economics (CHUDE)
- Steering Committee of CHUDE
- University Senate
- Heads of Department Caucus
- University Council
- Faculty Board
- Faculty Management Committee
- Advisory Board of Surrey Energy Economics Centre (SEEC)
- Joint Board of Senate and Council
- Committee on University Statutes
- Finance and General Purposes Committee
- Co-ordinating Committee for Combined Degrees with Business Economics
- Co-ordinating Committee for the Joint Course of Mathematics and Economics
- Advisory Committee for Adult Education
- The Academic Assembly Policy Committee
- University Delegacy
- Working Party of Delegacy on Examination Regulations
- University Research Committee
- Major Awards Sifting Group
- Minor Awards Sub-Committee
- Working Group on University Resource Allocation

Curriculum Design

- Honours Degree Programme in Economics, 1981
- Honours Degree Programme in Business Economics with Computing, 1989
- Masters Degree Programme, 1996

RESEARCH AND SCHOLARSHIP

Principal Research Interests

International financial issues with particular reference to developing countries, including:

- the political economy of international monetary reform.
- the role, activities and policies of the International Monetary Fund.

- currency and financial crises.
- the role of private capital markets in providing international finance.
- the balance of payments problems of low income countries.
- exchange rate policy in developing and emerging economies.
- adjustment policy in developing countries.
- various aspects of global macroeconomics.
- foreign aid.
- external debt and developing countries.

Sources of Research Funding

- British Academy
- Economic and Social Research Council
- Overseas Development Administration
- Department for International Development
- World Bank
- Commonwealth Secretariat
- United Nations Development Program

Maynard and W. Van Rycheghem, *World of Inflation*, Batsford, 1976.

In addition to the above, I have written a large number of book reviews that have appeared in leading international journals, including: *Economic Journal*, *Journal of International Economics*, *Journal of Development Studies*, *The World Economy*.

CONFERENCE / SEMINAR PRESENTATIONS

In the interests of brevity I am not listing the details of all my conference and seminar presentations. Since 2000 I have, *inter alia*, given papers at the *American Economic Association* (Boston), the *Western Economic Association International* (San Francisco and Seattle), the *Development Studies Association* (London and Glasgow), the *International Monetary Fund* (Washington D C), the *Bank of England*, the *European Central Bank* in Frankfurt, the *Journal of Policy Reform Conference* (Miami), *Yale University*, *Harvard University*, *Stanford University*, the *Sir Arthur Lewis Institute of Social and Economic Studies*, *University of the West Indies*, the *Political Economy of International Organizations* conferences in Geneva (keynote address) and in Georgetown and Villanova, the *Central University* in Beijing and *Shandong University*.

EXTRACTS FROM THE REVIEWS OF BOOKS BY GRAHAM BIRD

The International Monetary System and the Less Developed Countries

‘The book is at once comprehensive, persuasive and sound. Although primarily designed as a textbook for undergraduates it should in fact prove useful even for specialists in the field. For a long time to come it should serve as the standard reference on this relatively neglected subject... Students prospecting for potential research topics should find this book a gold mine... This is a first-rate piece of work and deserves to be widely used.’

Benjamin J Cohen, *Economica*

The Quest for Economic Stabilisation: The IMF and the Third World

‘the research would become the main source for debate on this topic the quality of the output is undeniably impressive’

ESCOR advisory committee of the ODA

World Finance and Adjustment: An Agenda for Reform

‘The book is full of informative material, it is highly recommended to anyone interested in the problems of debt, LDCs, SDRs, IMF, international monetary problems in general, development economics and international relations. It was a genuine pleasure to read a book dealing with important policy issues in international finance and international monetary reform.’

Marakiro Kawai, *Journal of Development Economics*

'in international finance ... one needs a framework within which to assess the many new policy initiatives. Bird, a British academic with excellent credentials in international economics, admirably furnishes even the non-specialist with the necessary superstructure ... the work is highly readable and relatively free of the jargon and technical tools used by economists.'

J Prager, New York University for *Choice*

International Financial Policy and Economic Development: A Disaggregated Approach

'a strength of this book is the comprehensiveness of its treatment of international financial issues affecting the developing world. As such it will be of great usefulness to students and practitioners interested in development finance, as well as more broadly in international economics. The fact that the issues are treated with great clarity makes it particularly useful for students.'

Times Higher Education Supplement

'The book is to be welcomed by students and specialists alike, due to its very clear and in-depth discussion of a wide range of key issues in international financial policy.'

Stephany Griffith-Jones, *Economic Journal*

'Graham Bird's study is ... timely in taking up the issues of the international financial system and the developing countries ... Students will benefit from Bird's clear presentation of the main problems underlying the debt crisis, and the relative role of export earnings versus debt repayments in determining a country's ability to service debt ... Graham Bird offers a comprehensive guide to the important issues in this most complex area of economic policy.'

Tony Addison, *Journal of Development Studies*

International Macroeconomics

'For too long macroeconomics has been dominated by closed economy textbooks and this small textbook is a welcome departure ... in a very short space, (it) gives students a useful summary of international macroeconomics.'

Ronald Shone, *Economic Journal*

Managing Global Money

'Most of the papers are policy oriented, and the issues raised are very much alive and in vogue. Very readable and useful especially for students eager to understand the role of the IMF in helping countries cope with their payments problems.'

Finance and Development

Commercial Bank Lending and Third World Debt

the book 'analyses and charts the build up to the Brady initiative and the thinking behind it, effectively, and makes a useful contribution to the burgeoning literature on the LDC debt problem and the banks' role in it.'

Andy Mullineux, *Economic Journal*

'the book is highly readable. It presents a lot of information in a non-technical and manageable form which will undoubtedly enhance its appeal to the general reader'

George C Abbott, *Manchester School of Economic and Social Studies*

Third World Debt: the Search for a Solution

'This is a valuable, accessible and well written volume that should find its way onto reading lists very quickly. The arguments presented demand more immediate attention than they have so far been given and the search for a lasting, and acceptable solution remains as urgent as ever.'

Fred Nixon, *Manchester School of Economic and Social Studies*.

The IMF and the Future.

'In this overheated environment, a balanced analysis is a welcome treat. Graham Bird, professor of economics at the University of Surrey, sets a high standard for clarity of both thought and expression...Bird covers the full range of issues that concern the IMF...it is an excellent survey of the policy choices and problems that pushed the IMF in the direction it is moving today.'

James M. Boughton, *Times Higher Education Supplement*.

The International Monetary Fund and the World Economy

'Bird and Rowlands have accomplished a remarkable milestone in providing the world this invaluable collection...they have done an exceptionally commendable job...The book

is timely, the issues are topical and the collection a delight to read and savour....This is an ambitious work that was well executed. I highly recommend it.'

Chika B. Onwuekwe, *Journal of International Banking Law and Regulation*.

The International Monetary Fund: Distinguishing Reality from Rhetoric

'Students of the IMF take note. This monograph provides a timely and comprehensive account of the functioning of the Fund, ranging from an analysis of what determines access to its loans to the consequences of its programs. Written by leading experts, this will soon become an authoritative source of reference on the IMF.' Axel Dreher.

'The book is a must read for anyone looking to understand and study IMF lending.' Ayse Kaya, *Review of International Organizations*.

'Bird and Rowlands argue the importance of a debate supported by empirical evidence. The richness of their study will certainly provide a benchmark for debate and future research in this area. Through the book, the authors have managed to maintain an unbiased approach to the IMF, which offers priceless material for reviewing the IMF mission.'

Ana Lana Gomez Pena, *International Affairs*.
